

## Quality Staff

- All childcare program staff meet the requirements for Texas Child Care Licensing.
- All staff are certified in Infant/Child CPR and Basic First Aid.
- All childcare staff have been cleared with a criminal history background check.
- Lead instructors for each age group will hold or obtain a minimum of a CDA or and Associates Degree in Early Childhood Education within the first year of employment.
- Interfaith pays our teachers \$2-\$3/hr. more than industry standard to attract and retain the best staff possible.

## A Nurturing and Creative World

- **Small Class Sizes.** We have designed our classes to maintain a student-teacher ratio that is below the state required ratio to ensure all children obtain adequate attention.
- **Beautiful and Convenient facility.** Our childcare facility was designed with your child in mind. It is secure, welcoming, and inspiring, with a state-of-the-art kitchen, onsite library, computer lab, sick care services, and play therapy/counseling office.

*“We partner with parents to help children reach their potential.” Kim Williams, CEO*

## Infants 6 weeks – 12 months

Individualized schedules and planning for each child provide a variety of learning experiences for all of the changes which take place during an infant’s first year.

## Toddlers 13 months – 24 months

Our toddler program provides a variety of fun learning activities designed to help children solve, predict, plan, share, cooperate, empathize, and learn to understand.

## Preschool 2 – 5 years

Activities are designed and scheduled to encourage socialization, respect for one another, sharing, cooperation, listening skills, independence and learning through play experiences. Classes will focus on Kindergarten readiness to help prepare children for school. Activities designed to promote cognitive, social/emotional, physical and language/literacy development are included in each day’s routine.

## Hope & Horizons

### Kindergarten – 12 years

Our Hope & Horizons after school and summer program has a proven methodology that consists of our *“Five E’s of Youth Program Excellence.”*

- Evaluation
- Expression
- Encouragement
- Education
- Exploration

We begin by evaluating each child to identify any academic gaps or challenges. From there, we help children advance academically and socially through opportunities for artistic and positive self-expression, positive reinforcement and encouragement, regular tutoring to supplement education, and field trips to bring learning to life through exploration. This program expands to a full day program for half days of school, no school days, and school holiday breaks. The after school program also includes:

- **Transportation from school.**
- **Access to play-therapy and counseling services.**
- **Opportunities to attend summer away camps and college tours.**
